About KJS Mining and Engineering

KJS mining and Engineering, began back in 2000 from a dedicated husband and wife team, Kerry and Amy. With 20 years of experience in the mining industry this has shaped KJS into the company it is today. With continuing upgrading and improving of our systems, equipment, training, communications, and people this ensures we are adapting and changing to continuing to develop in the mining industry.

KJS Vision

Our main priority is to deliver exceptional labour/equipment support to our clients by adding value to their projects across Australia. Working with the needs of our clients and adapting our systems and support services to maximize our client's productivity return is our key goal.

RELIABITLY

KJS Mining and Engineering employs over 60 people led by Kerry and Amy's leadership and their senior leadership team.

What we deliver is:

- A high level of service and quality in our workmanship
- Vast Client support
- Rapid response and fast turnarounds
- High Standard of experienced Employees
- Competitive Rates
- Reliable Hire Equipment

Workshop Facilities

Our Offices and Workshop are conveniently located in Home Hill and Sarina Range.

With a fully equipped workshop in the Home Hill which has the facilities to complete a range off offsite work.

Fabrication

KJS offers off-site work that can be done in our Home Hill workshop:

- Fuel tank repairs

Key Strengths

SAFETY FIRST. Safety is our core value and number one priority.

Safety Values

KJS commitment to Safety is continuous. At KJS we are consistently investing and supporting our commitment to Safety, we recognize our responsibility to meet our customer, employee, community, and shareholder expectations.

Our plans/policies include:

- HSEQ Policy
- Risk Management
- Incident investigation
- Risk Management plan

Wellness and Injury Management

KJS employees are our most important asset, therefore their wellbeing is our priority. We promote healthy lifestyles and have appointed a senior leadership team member as our Health/Wellbeing/injury officer to build a communication line with our clients.

Our People

Being part of the KJS team means your part of the KJS family. KJS promotes a healthy lifestyle balance between family and work commitments. We believe strongly that our employees must enjoy and love their work to have pride of workmanship in each task. We encourage our team to innovate, learn and be accountable. Our employees' feedback is a valuable source of information to help us continually improve. At KJS we are one team.

Our Qualified and experience employees share our commitment to safety and quality of service with a focus of adding value to each of our client with cost, effectiveness, safety at our forefront.

Business Practices

At KJS we work hard to deliver and safeguard our reputation as leaders of labour and equipment providers.

Quality controls:

- Comply with all applicable laws, regulations, and mandatory standards especially those relating to Health, Safety, Environment and Quality. Where these do not exist, we will apply appropriate internal standards that reflect KJ's Mining & Engineering's commitment to minimise impacts from our operations, services and products while meeting the agreed outcomes through effective implementation of our procedures to achieve consistent high standards of compliance and customer satisfaction.
- Consult with and promote active participation of employees in the management of Health, Safety and wellbeing of themselves and others.
- Promote personal responsibility in incident prevention and ensure each employee understands their responsibility to themselves, family, fellow employees, and to KJ's Mining & Engineering in the performance of their duties.
- Proactively pursue the identification of all risks and eliminate, or if not possible, mitigate the risk by implementing systems to identify, assess, control and monitor those risks.
- Educate and train our employees on KJ's Mining & Engineering Safety, Environment and Quality requirements and assign appropriate accountabilities and responsibilities.
- Establish, document, review and monitor measurable Health, Safety, Environment and Quality objectives and targets to continually improve our performance.
- Ensure we minimise our impact on the environment by reviewing and monitoring our activities.

Our way of Operating

We continue to invest heavily in our people to support our clients in reliability, profitability, and simplicity. We pride ourselves in our services that KJS offer and encourage and reward ideas and feedback. This is supported by:

- Senior leadership team that is committed and accountable
- A culture of understanding and connects
- Identifying risks
- Correct training to all employees
- Safety Systems for compliance and reporting
- Implementing new initiatives to continue improvements

Environment

We are committed to sustaining our natural environment and lessen environmental impact due to our activities.

We understand that all employee's/management are responsible to apply effective controls whilst working to ensure the environment is protected. This should not only apply at work but encouraged 100 per cent of the time. We believe strongly in reducing, recycling, and reusing this is applied to our offices and workshops.

All Environmental incidents will be reported and investigated at operating sites and workshops.

Community

Giving back to the community is an important commitment that KJS supports yearly.

We value the communities in which we work in. We have a proven track record of solid recruiting from these smaller rural communities in which we work.

Each year we support local charities, events, sporting groups providing us with our commitment to give back. Local buying helps support local industries and business.
